

ScannTECH 401i / 601i

Scanning systems for formats bigger than even A0

Efficient solutions for large-size documents. With our scanning systems we provide you a broad product variety - from our smallest, the A3-scanner, up to our A0-system.

We have several versions of scanners - exactly suited for your requirements. Whichever version you may need, you would have a versatile and user-friendly scanning system to meet the greatest demands.

The scanning systems have been especially developed for those kinds of use, when extraordinary results and careful treatment of valuable masters are expected. Even most precious pieces such as documents of most sensitive materials can be scanned absolutely save.

All systems stand out for excellent image quality, dimensional accuracy and scanning sharpness even in the marginal zones.
